Women Who Grow

**"SUPPORTING WOMEN
IN THEIR IT
CAREERS"**

MISSION

Girls and women – powerful force

Our vision is to empower girls and women to excel in STEAM fields, confidently shaping technological innovation, supported by a strong learning, networking, and career growth ecosystem.

VISION

Empower girls and women in STEAM

Our mission is to empower women and girls in STEAM through education, mentorship, and professional development, fostering a diverse network that promotes innovation, leadership, and their influence in the tech industry.

PILLARS

EMPOWERMENT HUB

Boost women's growth in the tech industry through workshops, mentoring, hands-on labs, and networking events. It focuses on nurturing leadership skills and building a tech-savvy, assertive attitude among women.

INCLUSION INNOVATORS

Collaboration with companies to champion women as top-tier professionals in tech. It aims to enhance team diversity benefits, create inclusive workplaces, and implement strategies to retain women in the tech workforce.

FUTURE TECH LEADERS

Motivate young women through collaboration with schools and universities, this pillar seeks to ignite interest in tech careers by highlighting opportunities and addressing common fears and misconceptions.

PROGRESS PIONEERS

Tackle societal stereotypes head-on, starting from childhood education and involving parents as key motivators. It's about transforming societal views and opening new pathways for girls in technology from an early age.

LET'S GROW TOGETHER
